PSYCHOLOGICAL STRATEGY BOARD  
Washington

February 7, 1952

25X1A

MEMORANDUM FOR: [REDACTED]

CENTRAL INTELLIGENCE AGENCY

25X1A

In accordance with our conversation of two weeks or so ago, I am enclosing a memorandum which suggests a few of the subjects which Messrs. [REDACTED] would appreciate discussing with members of your staff. Some of these questions came to mind as a result of the briefing which [REDACTED] conducted in December, and others are stimulated by their looking toward to their participation in 10/5 matters under the procedure which has been developed and is before the Board for final approval. As the heading of the paper indicates, these are sample questions and I am sure that a discussion of them will lead to others.

25X1A

You suggested that you would be willing to call a meeting for a discussion of this sort. Could this be arranged fairly soon, or, in the alternative, if more convenient for you, would it be possible to arrange separate discussions between Messrs. [REDACTED] and the individual members of your staff according to subject matter?

/s/ John

[REDACTED]  
Assistant Director  
Office of Coordination

Enclosure:

Cpy #4 of questions  
for discussion.

"Don't be alarmed by the breadth of the questions. Obviously, many of them cannot be answered but they can serve as a means of exchanging ideas -- JS."
